Open to Relocation | Immediate Joiner

PROFESSIONAL SUMMARY

Full-stack MERN developer with hands-on experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, WebSockets, authentication systems, and modern UI frameworks. Developed production-ready real-time and productivity applications with secure architecture and responsive design. 2+ years of professional experience at Amazon applying data accuracy, quality assurance, and process optimization. Strong debugging skills, clean coding practices, and cross-functional collaboration.

TECHNICAL SKILLS

Frontend: React.js, Redux, Zustand, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, DaisyUI
Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets (Socket.io)
Database: MongoDB, NoSQL, Mongoose ODM
Tools & DevOps: Git, GitHub, npm, Postman, VS Code, AWS EC2, AWS RDS, Render Deployment
Core Concepts: OOP, Data Structures, Debugging, Agile Development, Problem Solving, Quality Assurance

PROJECTS

Pingify — Real-Time Chat Application

Live: <https://pingify-app.onrender.com/>

GitHub: <https://github.com/codedocSriram/pingify>

Built a scalable real-time chat platform supporting one-to-one messaging and file sharing

Implemented WebSocket communication using Socket.io for instant message delivery

Designed secure JWT-based authentication and role-based access control

Applied bcrypt encryption for secure password storage

Developed responsive UI with React and Tailwind CSS

Structured backend APIs for performance and maintainability

Tech Stack: React, Node.js, Express.js, MongoDB, Socket.io

MindPalace — Note-Taking Web Application

Live: <https://note-taking-app-mern-w33z.onrender.com/>

GitHub: <https://github.com/codedocSriram/note-taking-app-mern>

Developed full CRUD note management system with optimized MongoDB queries

Integrated OAuth authentication using Clerk API for secure login

Implemented middleware-based protected routes

Designed responsive UI and efficient client-side state management

Improved application performance with structured database schema

Tech Stack: React, Node.js, Express.js, MongoDB, OAuth

PROFESSIONAL EXPERIENCE

Amazon

Catalog Associate

Chennai, India | July 2022 – January 2025

Managed and optimized product listings across international marketplaces (IN, US, UK, CA)
Conducted data audits ensuring high catalog accuracy and compliance
Resolved complex listing inconsistencies and data integrity issues
Collaborated cross-functionally to troubleshoot operational workflows
Contributed to process improvements reducing catalog errors
Skills Applied: Quality Assurance, Data Handling, Analytical Problem Solving, Cross-team Collaboration

Full Creative

Software Developer Intern

Chennai, India

Assisted in developing and debugging production web applications

Participated in feature development and code reviews

Followed SDLC practices and agile workflows

Strengthened real-world debugging and deployment skills

EDUCATION

Bachelor of Science in Computer Science

Agurchand Manmull Jain College

University of Madras
