

SRIRAM ANNADURAI

Frontend Developer | React.js | JavaScript
mailsriram98@gmail.com | +919025108203 | Chennai, India 600043

SUMMARY

Frontend Developer specializing in React.js with experience building real-time and scalable web applications using the MERN stack. Strong focus on performance, clean UI architecture, and responsive design. Built and deployed production-ready applications including a real-time chat platform using WebSockets and a secure note-taking application with OAuth authentication. Experienced with modern frontend tooling including React, TailwindCSS, and REST APIs.

SKILLS

Frontend	Backend	Tools	Concepts	
- React.js - JavaScript (ES6+) - HTML5 - CSS3 - Tailwind CSS - DaisyUI - Redux - Zustand	- Node.js - Express.js - REST APIs - JWT Authentication Database - MongoDB - Mongoose - NoSQL	- Git - GitHub - Postman - Webpack - NPM	- SAAS - SPA - Browser Storage/caching - Cross Browser Compatibility - Responsive Design	- State Management - Object Oriented Programming - WebSockets - Authentication Systems - REST Architecture

PROJECTS

Pingify – Real-Time Chat Application

Tech: React.js, Zustand, Node.js, Express, MongoDB, Socket.io

- Built a real-time messaging platform enabling instant one-to-one communication using WebSockets.
- Implemented JWT authentication and role-based authorization.
- Designed scalable REST APIs for chat sessions and message persistence.
- Implemented secure password storage using bcrypt encryption.
- Optimized UI performance with React component state management.

GitHub: <https://github.com/codedocSriram/pingify>

MindPalace – Secure Note-Taking Application

Tech: React.js, Node.js, MongoDB, Clerk Authentication

- Developed a full-stack note management system supporting secure CRUD operations.
- Integrated OAuth authentication using Clerk API.
- Implemented protected routes and session-based user authorization.
- Optimized MongoDB queries for faster data retrieval.
- Designed responsive UI with modern React component architecture.

EXPERIENCE

Frontend Developer – Career Transition & Upskilling

01/2025 – Present

Chennai, India

- Left Amazon in January 2025 to transition into frontend development and pursue focused technical upskilling.
- Built and deployed full-stack projects using React.js, Javascript, Node.js, Express, MongoDB, REST APIs, and WebSockets.
- Strengthened frontend engineering skills through hands-on work in responsive UI, state management, authentication, and performance optimization.
- Used GitHub, Postman, and modern React state management tooling throughout projet development.

Catalog Associate – Amazon

07/2022 – 01/2025

Chennai, India

- Managed and optimized product listings across international marketplaces (IN, US, UK, CA).
- Conducted data audits to enhance catalog accuracy and ensure compliance.
- Resolved complex listing inconsistencies and data integrity issues.
- Implemented process improvements that minimized catalog errors.
- Collaborated cross-functionally to identify and resolve operational workflow issues.
- Skills Applied: Quality Assurance, Data Handling, Analytical Problem Solving, Cross-team Collaboration.

Software Developer Intern – Full Creative

3 months

Chennai, India

- Contributed to feature development and code reviews.
- Supported development and debugging of production web applications.
- Applied SDLC practices to optimize project management processes.
- Strengthened real-world debugging and deployment skills.

EDUCATION

Bachelor of Science in Computer Science

Agurchand Manmull Jain College, Chennai
